

STEPS

1. To make this lovely gift collect all your materials on a flat clear surface.

2. Let's start! Print the outline and cut out the pomegranate. If you wish you can glue the cut out on cardboard so it is more stable.

3. Take a piece of clay (or you can use salt dough) large enough to make a ball about the size of a ping pong ball. Press down to make a flat disc a little larger than the pomegranate you have cut out.

4. Carefully place the pomegranate pattern on your flat clay so you can use it as a guide to cut out your pomegranate.

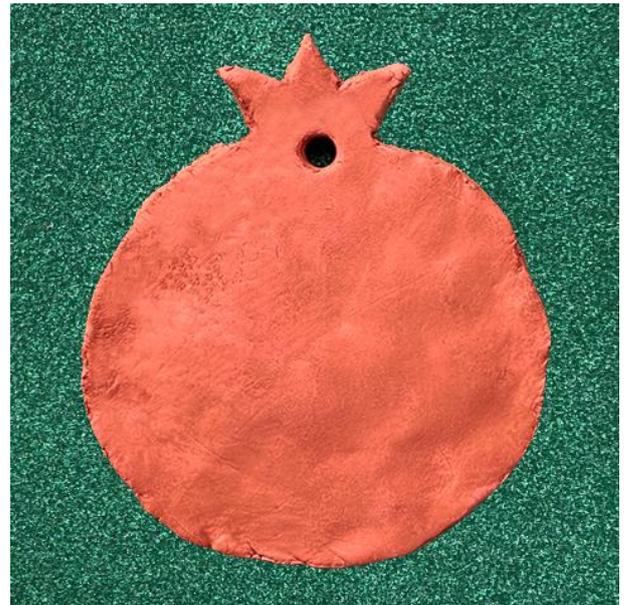

5. Take your toothpick and cut firmly around the pomegranate pattern.

6. Carefully remove the extra clay that remains from your clay pomegranate.

7. Don't forget to make a hole on your clay pomegranate in the spot shown on your pattern. That way you will be able to hang your pomegranate later by passing some ribbon or a string through the hole.

8. Let the clay dry for a whole day and a night so it becomes solid.

9. Your pomegranate is ready to be decorated! Let your imagination go wild and paint, glue or carve whatever decoration you wish on the pomegranate. If you like, send a photo of your pomegranate to our Gallery.
